
Letter to Eva Groenke, November 1991

Nov 4/91

My dear Eva,

Thanks for your OCT 22/91 long letter. I thought you would go to Madrid for the Mid East peace talks opening, to be near your 'magnet' Gorbachev. I hope it was a success for you. I happened to be in Madrid then for a short while, too: from early morning Monday (OCT 28) till noon on Tuesday. Had not much time for general sightseeing (not much time for sleeping, either), for I had to „work“ around the clock to help in counteracting a Dark Forces-organized very dangerous terrorist disruption and assassination attempts.

Originally I was flown over for some routine courier-mission, to deliver documents & coded instructions to a 'go-between' fellow (most likely an Earthman, like me, but could have been an E.T., too).

From the airport I was driven into Madrid's Center, a „safe-house“ near PLAZA MAYOR (all these meetings and transactions had to be done through pre-arranged recognition signals & passwords. At the receiving end they had the code-keys to decipher the instructions strictly for „their eyes only“.

Normally, my job is over at that point – but not this time, since something vitally urgent came up, which required my full cooperation, too).

They equipped me with photo-ID press credentials, and sent me into the midst of the milling crowds, police check points and road blocks surrounding press-pools & facilities in hotel lobbies near the Royal Palace where the superpower VIPs were transported for their appearances.

My role was to play a „decoy“ by circulating in that vast center-of-action area, in order to draw the the attention of opposition operators and make them follow me. On purpose I had to let them 'discover' the small auric-device on me for tracking the opposition agents if stumbling into close range to them. The idea was to make their 'counter-detectors' go on alarm and make them follow me – which helped my 'shadowing' co-workers to follow them & monitor their contacts & sources. Well, I succeeded this fashion with 6 opporting agents that led my Space Federation team to penetrate their network – and with appropriately keyed psychotronic energy-beams my team managed to make them act suspiciously to result in several arrests & special weapons-seizures by the local authorities or the Special Security Task Force of International Counter-Terrorism.

My ET friends asked me to play the 'decoy', for they would not want to expose any of their top secret operatives – and I have been already known by the opposition, anyway. And it all worked very well: The selective assassination of Gorbachev and some VIPs, along with large scale mass-killings with mostly explosive devices was stopped and therefore a possible global war was averted.

For me it was a small price to pay by my role-playing circulation (mostly on foot, very little rest, no private stuff; still I enjoyed seeing the historic buildings area, the crowds and all the circus, enjoyed the romantic fun atmosphere of the Plaza Mayor – I even kept hoping to spot you somewhere in the midst of it). It was fun and adventure, and very very tiring...

The action at the time of last summer's visits to the USSR – mostly Tbilisi – were somewhat similar scenarios like in Madrid, except that I played much smaller roles. There, my ET friends were using the vibrations changing device (a well focused psychotronic-beam projector with pinpoint accuracy which can be locked-in on the auric-print of an even moving target) to spoil the Dark Forces linked Grey Ones controlled kidnappers and would-be assassins of Gorbachev and others. The ET's are not allowed to interfere with physical directness; however, it's ok to spoil the Grey (or Black) opposition-manipulated interference.

Proxy-war by manipulation & counter-manipulation, that's what this is called. That is why it appears to the public that human governments are doing the things (of course, they do it, on the surface. But behind there are the manipulating ET powers. Personally, I know that I work for the Forces of Light, through my own ET friends and assistants with fool-proof identities. But how much Bush knows about all this, and which side he is truly on, I don't know.)

By the way, the threat of the 'Killer asteroid' approaching Earth is no big secret. There were some leaks in spite of governments-imposed news-black out to avoid public panic. All I learned that the Federation will definitely alter the asteroids course from a collision with Earth. How soon is not decided yet – the Federation ET may want to wait a while and see what Earth governments or Grey ones may want to do with this impending catastrophe. But Earth officials know only about the news-black out and might not like questions about it at any press-conference.

Re: Your past meeting two possible ETs in the Moscow Foreign office. You may be quite right, but there is no record of the event in the Federation-files as I was informed by them. Could be a case of many ETs in the area at that time, but very few reports on minor incidents.

Incidentally, in my USSR trips I was seldom near any office. My local contacts there were in 'safe-houses' and supplying me with credentials if needed.

Thanks for sending the pamphlet on Jan. 11/92 11:11 event. I appreciate it, for I can send copies to some local friends here. Actually, I already heard about this upcoming great event – but I believed it was already widely known all over. Besides, according to my ET friends, for me personally there is a different avenue to my progress and future ascension (only after all the Earth-work will have been done!), but I was still ask to participate in the world-meditation with a small group wherever, or at least in spirit. That I intend to do, as best as I can, looking forward to Jan. 11/92.

Regarding my possible coming to speak at UFO events next summer in Europe: Would be nice to get invited by Hesemann, too, but not vitally important. Speaking at Alfred's seminar in Austria (with your being there, and your possibly interpreting, too) would be reason enough to go. So I would accept Alfred's invitation, but would like to know the date of the event, and have my hotel room and board reserved, along with my round trip airfare paid (either by prepaid ticket from there or by sending money here for me to buy ticket).

I need to go to a Paris family-visit afterwards, so I'd like to have a built-info the ticket stopp-off either in Paris or at least in Frankfurt, which is not far, and need to have ticket and hotel reserved in ... (*unreadable*) at least 3 month before the event in Europe. I already am allowed to take some time off then, but exact dates are necessary to adjust my other obligations and speaking-engagement plans around to European trip. So please, let me know the dates (even if just approximately) so I can have a general idea, also to have Alfred to send me some early announcement in print – along with an official invitation from him if possible (or if you think it's necessary).

Otherwise, I am fine, living a quiet peaceful life (whenever not on an assignment). I enjoyed the hot long summer we had here. Now it's turning quite cold for the winter season, but I still like to take long walks in the fresh air, for reenergising and revitalising myself.

I guess, if all goes well, you'll be in Egypt on Jan. 11/92. In soul I will be there, too, even if ...(*unreadable*).

Lots of love, Oscar
