## Oscar Magocsi's letter to Eva Groenke, December 1992

Dec. 15, 92

Dear Eva,

just received your Dec. 5th Xmas letter...My fast reply to your letter was due to my having one slower day in an otherwise very busy and events-filled life, also due to the many questions of some urgency in your letter. Well, let's tackle them one by one:

I read only Strieber's "Communion" book in parts, finding the Greys repulsive and violating our people. There may be some deeper spiritual reasons to their actions, but personally, I don't care. I just don't even want to know about them at all.

When your proposed book comes out, it is quite OK to mention my home and city of residence. No problem if I receive silly phone calls; my phone-answering machine can take most of them since I am hardly ever around very long to personally answer. I could get an "unlisted" secret phone number, but I don't want to go that way.

I still keep reprinting my books if orders come in. I still sell them, even though far less than in earlier years. Still using Quest Group address which is still valid.

Canada and the USA are partners in not only the NATO, but also in the NORAD. This latter is part of our joint and common defense of the North-American continent. Most of the ET-connected or other highly confidential courier-jobs are assigned through an appropriate joint-agency with full discretionary powers, not accountable to either the Parliament, Congress or Senate. If it had to, it could even function swiftly and efficiently in emergency or top-urgency situations! This anonymous agency can choose any personal and any means to fulfill highly sensitive and usually top secret missions.

But your friend was quite right, that an official US-Government service could not officially employ a foreign citizen (a Canadian like me), yet they still do it unofficially on occasion!

(This much you can feel free to write up in your future book, without going into very specific details. People will not believe most of it, anyway, so try not to test their credibility - even if any intelligent person should know, that behind all the great or

small world-events of the past years there were many-many unseen actors and agents from the various interest groups.)

Gorbachev still has great influence on many things even though he is not "center-stage" for a while. But he will make a dynamic public come back in the future.

1993 is going to be the fastest, most dynamic and most eventful year so far. Both globally and personally for each one of us on Earth, due to the ever faster acceleration of the TRANSITION-times (of which we are more than halfway through already!)

Well, I am closing my lines for now, dashing off to mail this letter so it may reach you the soonest.

Lots of Love,  
Oscar.
