
Letter from Oscar Magocsi to Eva Groenke, December 1999

Dear Eva,

it has been a long time since my last letter to you. I have been terribly busy in these closing days of Millenium. I know that the 20th century ends a year from now – but we are already in the so-called „Last Days“ of the Era.

All this year long I have often been away to assist my spacefriends from their ships in various rescue-missions at places of big catastrophes, wether man made or natural, like Kosovo in Yugoslavia, Chechnia in Russia, Africa, Central American floods, Turkey earthquake, Japan mud-slides, storms and floods in China and in India, etc. etc.

Most of these troubles were caused by the Dark Forces' weather and climate manipulations. We, the good guys, „beam down“ or just air-trop food-water-medicine supplies, also help to transport many victims and even permanently evacuate a few. And all these while we must fight or „out-trick“ the ships of the Dark Forces.

Then, in between missions, I helped out to manage here the area's „safe houses“, which were set up for humanoid visitors from Space and for Federation couriers and various personnel in travel. So I have very little privat time or private life. I hardly even have time to go to meetings or conferences.

Well, that's the way it is in these critical times. The great prophecies are getting played out now, but on a much smother scale than Nostradamus and others believed. Of course, it is still not over. But after 2001 or so, the Earth will be receiving more and more light and energy from the approaching „Photon Belt“.

Now the great transformation into the 4th and 5th density and the start of the Golden Age is predicted for about 2012, at the end of the Mayan calendar. So in a year or two the heavy work for me and the heavy troubles for Earth will be reduced a lot....

But we shall see it, when we shall see it.

Otherwise my health is O.K, my energies are holding out for now. I hope, all is well for you and with your Wicca activties and various projects. Hoping to hear from you some time, I remain your friend,

with much love,
Oscar
