Subject: The major reason why Oscar died

First: Here is a description how I met Oscar Magocsi

I met Oscar Magocsi in Toronto in the fall of 1979. I met Oscar at the Rosicrucian Temple on Sundays during their morning meditation sessions. Oscar did not tell me at that time, that he was a ufo contactee, when I met him there at the Rosicrucian temple. It was later, when I asked the editor of INNER LIFE (Toronto's metaphysical magazine at that time) if he (the editor, Ero Talvilla) knew any ufo contactees living locally here in Toronto and Ero said yes....

Since Oscar's telephone number was not private, so Ero Talvilla was able to give me Oscar's telephone number and so I telephoned Oscar and made an appointment to meet and interview Oscar. I had then and still have a great interest in ufos. Since it transpired that Oscar and I shared very similar metaphysical interests besides ufos, so we actually became friends and we remained friends until Oscar died on Sunday Sept 8, 2002.

The following is the major reason why Oscar died in Sept 2002:

You see Oscar was aboard a medium size flying saucer in February 2002, belonging to the Psychean Space Brothers, who in turn are from the Psychean Federation, which in turn belongs to the Interdimensional Federation of Free Worlds. This flying saucer with Oscar aboard was hovering over Afghanistan, because Oscar and all the other people aboard this flying saucer were sent by the Space Command of the Interdimensional Federation on a humanitarian mission to drop from that flying saucer emergency supplies lashed to pallets from a low altitude, because a natural disaster took place in Afghanistan in that specific area in February 2002. Well, what happened then is that all of a sudden, when they were dropping those emergency supplies from that hovering flying saucer; all of a sudden this flying saucer was attacked by an enemy flying saucer belonging to the negative extraterrestrial forces on Earth; namely belonging to the "Imperial Alliance of Righteous Worlds" who are the evil guys!

The enemy flying saucer shot some kind of a beam that had a very strong debilitating effect on any humans inside that federation flying saucer: This particular beam literally drained the physical vitality out of any human on board of that Federation flying saucer. Most of the people aboard that Federation flying saucer were young people and subsequently they all recovered, except Oscar, who was the oldest earthling human on board of that flying saucer. Oscar started getting physically weaker and weaker, until near the end he couldn't even talk and didn't even have the strength to open the bathroom door at, let's say, a McDonalds restaurant, or at home....

A contributing medical condition to Oscar's progressive physical debilitation was a second medical problem that Oscar had, which doctors call MOTOR NEURONE DISEASE...

And so Oscar died from the combination of these two medical conditions, but mostly from extreme

lack of physical vitality, death occurring on Sept 8, 2002.

Oscar had very active contacts with benevolent ETs until that attack in February 2002 after which he started failing physically very rapidly ultimately resulting in death.....
